Remove multi-person emoji from Emoji_Modifier_Base

To: UTC

Apple and Google oppose the inclusion in Emoji_Modifier_Base of emoji that show multiple people (or parts thereof). We do not think a mechanism should be supported that only permits depiction of multi-person groups (or elements) in which each person has the same skin tone. The following should be removed from Emoji_Modifier_Base in the draft 4.0 version of emoji-data.txt:

U+1F46A FAMILY
U+1F46B MAN AND WOMAN HOLDING HANDS
U+1F46C TWO MEN HOLDING HANDS
U+1F46D TWO WOMEN HOLDING HANDS
U+1F46F WOMAN WITH BUNNY EARS (commonly depicted with two people)
U+1F93C WRESTLERS
U+1F91D HANDSHAKE

Note: All but HANDSHAKE were added to draft 4.0 emoji-data.txt as a consequence of L2/16-228.
